CDPH HAI Program COVID-19 Infection Control Training Curriculum Focus on SNF

Self-Study

This training curriculum will provide you with the education and resources needed to assess and provide consultation for a facility's response to COVID-19. Follow the training in numerical order to build a strong foundation of infection control methods and strategies facilities can use to prevent, detect, contain, and respond to COVID-19, as well as address supply and staffing shortages. If you have any questions, or need further guidance, please reach out to your HAI team (email).

Sections:

- General information Information on COVID-19 is available through these links.
- Infection control In order of importance- Guidance on limiting exposure, making physical changes in the
 workplace to reduce exposure, administrative and practice controls, procedures to prevent exposure, and
 personal protection.
- SNF Outbreak Prevention and Control Guidance to prepare for, prevent, detect, and manage COVID-19 in a facility.
- Addressing supply and staffing controls Strategies for planning, monitoring, and mitigating staffing and supply shortages.
- Staying up to date Review the latest guidance prior to advising a facility. Use these resources to stay up to date with most current information.

Document or video Why it's important

	unient or video	why it s important
General information		
1.	AFL 20-51 Updated COVID-19 Symptoms,	New symptom list based on epidemiologic data updated
	05/09/2020	three months after the pandemic began in the US
2.	CDC COVID-19 Information home page	Primary resource for science-based guidance and
		recommendations for COVID-19; documents updated as new
		information becomes available

		confirmed COVID-19, including practices for after returning
		to work, and mitigating staffing shortages
Add	lressing supply and staffing shortages	
16.	CDC Strategies for Optimizing the Supply	Guidance for HCP to optimize options for PPE use during
	of PPE (follow and read all links for each	supply shortages, including contingency strategies to help
	PPE type)	stretch PPE when shortages are anticipated, for example if
		facilities have sufficient supplies now but are likely to run
		out soon and crisis strategies during severe PPE shortages.
		Emphasizes as PPE become available, facilities should
		promptly resume standard practices. Includes separate
		strategies for each PPE type including respirators, facemasks,
		isolation gowns, and eye protection
17 .	CDC PPE Burn Rate Calculator	Crucial tool for facilities to track daily PPE use, calculate
		number of days of available supplies, and plan for ordering
		supplies. Allows facility to detect changes in usage and alter
		ordering strategies before supplies run too low
18.	AFL 20-39 Coronavirus Disease 2019	AFL describes how to safely select, use for an extended
	(COVID-19) Optimizing the Use of PPE,	period, and store PPE to maximize staff and patient
	4/13/20	protection when there are PPE shortages
19.	NETEC video Implementing extended use	Webinar describes how three US hospitals, experienced in
	and reuse of available N95s	caring patient with Ebola and other highly infectious
		diseases, implement decontamination, extended use and
		reuse of N95 respirators
20.	CDC <u>Decontamination and Reuse of</u>	Guidance describes approved methods for extended use,
	<u>Filtering Facepiece Respirators</u>	reuse and decontamination of N-95 respirators, including
		the efficacy of each process
21.	CDC Mitigate Healthcare Personnel	Guidance for addressing facility staffing shortages
	Staffing Shortages	
22.	AFL 20-46 Requests for Urgent Staffing	AFL establishes the steps and chain of command for urgent
	Resources for COVID-19	staffing needs, including reporting requirements and
		reimbursement information
	ying up-to-date on current guidance	A T. 100 A 111 C 1111 C 1111
23.	AFL 20-50 Skilled Nursing Facility	AFL notifies health facilities of weekly SNF Infection
	Infection Prevention Calls, 4/30/2020	Prevention Calls held to discuss recent updates on COVID-19
24.	CDC COVID-19 What's New	Webpage that lists by most recent date the COVID-19
		guidance that has been newly released or updated by CDC;
		checking 1-2 times per week is an easy way to stay current
		as more information becomes known
25.	CDPH AFL 2020 webpage	List of AFLs released in 2020 to provide regulatory guidance
		and information to CDPH licensed facilities
