RE: Notification of Center for Health Care Quality Reorganization

Dear Ms. Walker:

This letter is to provide notice that the California Department of Public Health (CDPH), Center for Health Care Quality (CHCQ) will be implementing a Center-wide reorganization. CDPH's mission is to protect the health and safety of patients under the care of California providers who are licensed or certified by the CHCQ. The Center's reorganization will realign functions under five (5) divisions: Field Operations North Division, Field Operations South Division, Licensing & Certification Division, Office of Internal Operations, and Public Policy and Prevention Division. This revised structure will provide more effective leadership for the various functional areas of the Center. The reorganization includes a realignment of existing and new positions, a new name, new sections/units, and new management positions within the divisions, branches, sections, and units to more effectively lead operations and achieve programmatic goals. This reorganization is expected to be implemented on or after November 20, 2020.

The reorganization will not result in the following:

- Layoffs
- Employee relocations
- Significant changes to duties
- Schedules changes
- Decrease in the number of authorized positions

A list of affected CHCQ employees and org charts are attached.

If you have any questions or wish to meet regarding the reassignment, please contact Christina Montserrat at (916) 440-7348.
